MAJ Creighton Barber

Herb Millers Retirement Luncheon

## » Hail and Farewell

Vol 1 Issue 2

### Farewell to:

#### Mr. Herb Miller (L-3 Titan Division: General Manager)

After 13 years of dedicated support to the PM LIS as the Contractor PM for L-3 Titan Division (Colonial Heights), Mr. Herb Miller has finally taken a well deserved retirement.

He and his wife, Glenda, who is also retiring with 32 years of service to the federal government, are relocating to their new residence in Leesville, Virginia. All of us here at the PM shop who have had the pleasure of working with Herb, wish him and his wife a wonderful retirement and a fond farewell.

#### MAJ Creighton Barber

What's on Creighton's mind these days - pineapples, hula dances, surfboards and white sandy beaches? It must be really hard to focus on all that ELS work he's got left to do when he just received his PCS orders to Hawaii.

Creighton will be working for doing at the . All of us left behind are sure to miss his infectious smile and lighthearted spirit. Won't he just fit in great in Hawaii - eating SPAM and Eggs and wearing Hawaiian shirts? Can you get BDUs in a tropical theme?

### Hail to:

#### MAJ Antonio Boston

One of our newest additions to the PM LIS staff is MAJ Antonio Boston. He came to PM LIS on 3 March 2006 from the PM Distance Learning Systems (DLS) in Newport News, Virginia. There his duties included being the Fielding Officer for the Army Learning Management System and the Deputy for the Operation Support Division.

He is an AGR officer in the Acquisition Corps and is Level three certified in Information Technology and Level three in Program Management. Those qualifications certainly should come in handy in his new position as the Deputy for Automated Logistics and Integrated Systems (ALIS). We are delighted to welcome him to our LIS family.

#### MAJ Jane Hostetler

Welcome back to Major Jane Hostetler, returning to PM LIS during the first week of July, 2006 from her 179 day deployment to Iraq. After arriving at PM LIS and attending several Army schools and serving as Operations Officer for the Assistant Project Manager Automated

Mike Bass

MAJ Antonio Boston

Logistics Integrated Systems, Jane departed in January 2006 to serve as the PM LIS Officer in Charge/Assistant Contracting Officer's Representative (OIC/ACOR) for the Automation Logistics Assistance Team-North (ALAT-N) at LSA Anaconda, Balad Air Base, Iraq.

She completed an outstanding tour of duty at ALAT-N, where she oversaw a number of major personnel changes, weathered the end of Task Order year challenges, planned and coordinated the increase in ALAT classroom capacity by 25% and arranged a smooth transition between ACORs. Hundreds of soldiers received refresher training at ALAT-N during her watch, many help desk trouble calls were resolved and the Army in Iraq is much better off because of her contributions.

Jane returns with a wealth of knowledge and experience that will allow her to continue managing aspects of the PM LIS' direct involvement in the Global War on Terrorism. Welcome back, Jane. Well done!

#### **Mike Bass**

We'd like to welcome to the PIOD team, Mike Bass. He is the Contractor Lead for the L-3 Titan primary contract supporting PM SALE in the Business Management and Plans, Integration, and Operations Divisions. Mike serves primarily as a long range planner for PM SALE in his direct support role. Mike is not new to serving the Fort Lee community, having come to us from a number of years of distinguished service at CASCOT Headquarters.
